

CORRESPONDENCE.

Grant Centre.

Lincoln Avery arrived home a few days ago a graduate of the State Agricultural College at Lansing.

Eugene Carey starts in a few days on a trip to Dakota. We wish him a pleasant trip.

The new town hall is nearly complete.

W. Botsford, of Pt. Huron, was here this week putting some repairs on his grain shed.

Grain is not so much damaged here as was supposed.

Steam threshers are all the rage here this year.

Hiram Ames starts on a prospecting tour through the West shortly.

Wales Correspondence.

Mrs. Editor:—Seeing your paper referred to in other papers I write for a sample and also to communicate a little. Like all the rest of this region of country we have suffered awfully from heavy rains through haying and harvest, which are otherwise good. Fruit is good and quite plentiful in places. The high water washed out several bridges which will be rebuilt after harvest. The County House at Goodells is well kept and managed by Jas. VanSlyke. It has about forty inmates. The R. R. station there don't seem to be building up much but the people near Wales Centre expect a depot or station on the new line from Port Huron to Almont which will be a large town in a few years. What is wanted here most is a good grist mill. Two or three sites are spoken of or offered and the enterprising builder who will come and start first will doubtless win the day.

With Respect, STEEL PEN.

A Visit to Lynn.

On arriving at the corners we noticed their new school house having been lately built by Wm. Cooper. It is a credit to the place and builder and it has given entire satisfaction throughout. The hotel kept by L. Presley is a temperance house and is kept in fine style. If a traveler should happen that way he would be well treated for Mr. and Mrs. Presley understand how to entertain their guests. John Allen, Sr. has put up a grainery and is building an addition to his barn which makes quite an improvement to his place. He keeps a general store and is the postmaster. He has almost recovered from his late sickness and is about attending to business again as usual. John Allen, the third, aged 11 years, sat on the reaper and cut 5 acres of oats on rough ground this harvest. James Sterling is about through harvest and his crops are turning out splendidly. Mr. S. is enjoying good health. We understand that David Yager's housekeeper's time is about up having hired her only for six months. Mr. and Mrs. McLaughlin are visiting their parents Mr. and Mrs. Houghton. The crops around about are looking well and we should think the farmers would be able to take two or three papers this fall and we hope that they will give the Brockway Centre Expositor a call so as to keep them posted in local matters.

OLD PEACH TREES.—Henry Mortimer gave some facts at a meeting of the Kankakee, Ill., horticultural society on the age of peach trees. A cultivator, now 67 years old, whose statements were regarded as entirely reliable, said that a seedling peach tree came up on his father's farm in Maryland and is alive yet. Mrs. Decker, at the same meeting, said she planted peach trees on a farm in the state of New York 33 years ago, which are now living and bearing. Maj. Williams said there was a row of peach trees on his father's farm in New York, planted over 50 years ago, and some are still living and bearing. He saw peach trees in the remains of an old Indian orchard in western New York many years ago, the trunks of which measured fully one foot in diameter, which must have counted many years.—*News.*
